## CAMS Technology Receiving Global Attention

It is humbling to witness the acceptance of CAMS technology around the world. During March, I made a presentation to the **5th Biennial World Congress of Neural Therapy** in Quito, Ecuador and was presented an award for academic excellence and contribution to humanity. Demand for CAMS products in Latin America has been accompanied by

a demand for educational material in Spanish to explain the science and its use in the CAMS devices. We are happy to announce that the Spanish edition of *Beyond Pills, Knives & Needles* will be published in April.

This month, the newsletter highlights the book. Here are some excerpts from Part I of *Beyond Pills, Knives & Needles*:

### **The Human energy field**

*Valerie Hunt, a neurophysiologist at UCLA and one of the first to verify the subtle energy field that surrounds the human body, discovered a distinct relationship between the coherence of a person's bioenergy field and his/her health....According to research, antiotherene (holes, tears, chaos or other disturbances) in the bioenergy field precedes sickness. Even more importantly, correction of disturbances results in the disappearance of symptoms. (pg 4)*

### **The Schumann Resonance**

*Today we recognize that the Schumann resonance is essentially a "tuning fork" for all life. At the very minimum, it synchronizes brain waves, balances circadian rhythms, improves performance, and plays a role in hormone balance. Its influence is far reaching with the potential to bring coherence back to an antiotherent human energy field. (pg 14)*

### **Crystals**

*Because of their unique molecular organization and their ability to transduce and amplify energy, crystals have played a pivotal role in ushering in our technological age. . .Marcel Vogel, an IBM scientist instrumental in the development of liquid crystal technology, discovered the powerful energy that could be accumulated and conveyed using crystals. His work helped to quantify their usefulness as tools for healing. (pgs 22-23)*

### **Scalar Energy**

*Most physicists today have come to realize that "empty space" is a virtual ocean of energy... It is referred to as scalar energy... and by some as the "wave of creation." (pg 29) The sea of energy around us is useless until it is organized and focused.*

### **How CAMS works - summary**

*The CAMS device receives a 7.83-Hz electromagnetic signal. It amplifies and transduces the energy, producing a coherent scalar output that follows the direction generated by intent. The focused flow of energy resonating at the Schumann resonance works like a tuning fork to re-establish coherence in antiotherent areas of the human bioenergy field. (pg 40)*
