## Enjoy the Golden Years with CAMS Therapy

Phyllis is a retired school teacher who still enjoys teaching. At 88 years of age, she's been retired almost as long as she taught school, yet she still tutors her grandchildren. . . . and loves every minute of it. According to Phyllis, one reason she is still able to do so much is

because of the CAMS Personal Tuner she purchased several years ago.

Five years ago, Phyllis had the typical aches and pains that creep in with age. Arthritis caused hip, knee and neck pain. She also had diabetic neuropathy in her feet. When she started to use the CAMS Personal Tuner, her pains began to decrease. Today she is nearly pain-free.

"Every evening I go through my routine," says Phyllis. "I treat my feet, my knees, my hips, my fingers, my heart, my lungs and my head. I didn't treat my head until I had a small stroke about a year ago. That hindered my ability to think clearly. But when I started to treat my head too, the clarity returned and my ability to process information came back."

There are few treatments for arthritis without side effects - and even fewer for diabetic neuropathy. Phyllis is happy she has found one treatment that works for everything.

Talking with Phyllis is a delight! Her voice is as clear and sharp as someone in their 40s.

"I am really blessed, especially when I consider how annoying my pains were before I got the Personal Tuner," acknowledges Phyllis. "I'm grateful."

### READ THE BOOK

Chapters 10 and 14 in Dr. Crosby's book, ***Beyond Pills, Knives & Needles***, discuss musculoskeletal disorders (including arthritis) and Neurological disorders (including neuropathy) in greater detail. Learn the science and background behind the CAMS

technology, and learn why it is the premier modality for inflammation, pain relief and much more. The CAMS Personal Tuner is ideal for home therapy during the golden years!

Order a CAMS unit and receive a FREE copy of Dr. Crosby's book.
